

Exercise

The Git workflow

You have now learned about the Git workflow along with key commands to use for each stage.

Can you match the commands to the zone reflecting the stage of the workflow they are used in?

Instructions

100XP

- Drag the commands into the relevant zone.

💡 Take Hint (-30 XP)

Drag the items into the correct bucket

Drop items here

Modify

Draft

Save

echo

nano filename

git add filename

git add .

git commit -m
