Exercise ‹

Personal data

In the video, we saw a list of data protection regulations around the world. To understand these regulations properly, you need to understand personal data. As a reminder, this is how GDPR defines personal data:

> *Personal data is any information that relates to an identified or identifiable living individual. Different pieces of information, which collected together can lead to the identification of a particular person, also constitute personal data.* **(Source)**

✓ Instructions `100XP`

Decide whether each type of data can be labelled as personal data.

⊗ 💡 Take Hint (-30 XP)

Incorrect

An email address is considered personal data.

Personal data

bob@datacamp.com

Salary

Location of birth

Religion

Eye color

IP address

Country

Genetic data

Not personal data

info@datacamp.com
