Microsoft cloud skills report

In 2017, Microsoft released a "Cloud Skills Report" where they surveyed 250 technical leaders in the UK who are actively involved in recruitment and technical evaluation. The report is publicly available **here**.

Below is a plot from the report which splits responses between medium sized organizations (250-999 employees) and large-sized organizations (1000+ employees):

Will having the right cloud skills be critical to your organisation's digital transformation?

250 – 999
| 15% | 26% | 38% | 14% | 6% |

1000 +
| 32% | 33% | 21% | 8% | 6% |

Total (unweighted)
| 26% | 31% | 26% | 10% | 5% |

■ Very critical   ■ Critical   ■ Important   ■ Not particulary important

■ N/A (no plans to become a more digital org)   ■ Don't know

What does this plot indicate about cloud skills?

⊘ **Answer the question**   50XP

Possible Answers

○ More than 80% of respondents believe that the right cloud skills will be important or critical to their organization's digital transformation.   press `1`
